

# Rachel & the TreeSchoolers Hand-y Craft: My ABC Insect Discovery Book

## Materials Needed:

- Report folder or 3-ring binder
- 8.5 x 11 blank paper
- Sheet protectors (optional)
- Colored pencils or crayons
- Scissors
- Glue
- Ink pads

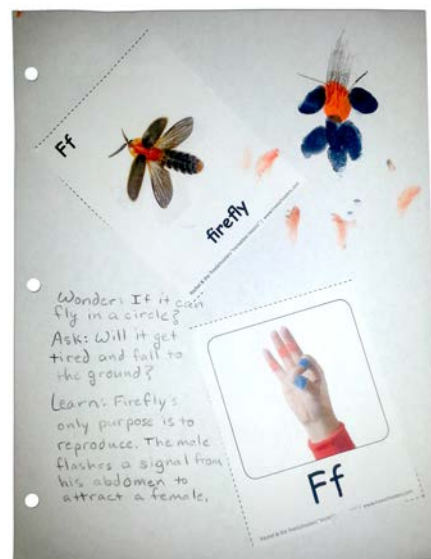

## It's time to make your ABC Insect Discovery Book!

- Step 1** Print the Discovery Book cover page and cards – see following pages.
- Step 2** Cut out an insect card and the corresponding ASL letter card.
- Step 3** Glue both cards onto a piece of blank paper.  
Leave room for artwork and questions.
- Step 4** Draw the insect, or use thumbprints and fingerprints to make it!
- Step 5** Write "**Wonder:**" and what you wonder about that insect.  
Then write "**Ask:**" and write a question about the insect.
- Step 6** Find the answer! Go outside to observe, ask an expert or look it up online.
- Step 7** Write "**Learn:**" on your page followed by what you learned.
- Step 8** Repeat as you complete the alphabet. This is a project you can do over several weeks or months. You may want to add additional insects for a complete Insect Alphabet Discovery Book.
- Step 9** Punch holes or place page in a sheet protector.  
Put all of your pages in alphabetical order in a report folder or 3-ring binder.
- Step 10** Glue the cover page to the outside of the report folder or slip it in the front of your 3-ring binder.

When you're done, be sure to share it with a friend!
