## I Wonder

I wonder  
Do you wonder?  
It all begins with wonder  
With a question on your mind  
You will find the world is wonderful

I wonder  
Do you wonder?  
The world is full of wonder  
Every day is a surprise  
You and I will find the wonderful

I wonder how a caterpillar  
Becomes a butterfly and flies around  
I wonder about lightning bugs  
And why are there some frightening bugs?  
I wonder what makes crickets so loud.

I wonder  
Do you wonder?  
It all begins with wonder  
With a question on your mind  
You will find the world is wonderful  
With a question on your mind  
You will find the world is wonderful

## Insects are Incredible

Insects are incredible they sure are incredible  
Insects are incredible  
Insects are incredible they sure are incredible  
Insects are incredible

Butterflies flying by they're more than just pretty  
They pollinate flowers all over the city  
Butterflies flying by they're more than just pretty  
They pollinate flowers they're making me dizzy

Insects are incredible they sure are incredible  
Insects are incredible  
Insects are incredible they sure are incredible  
Insects are incredible

Honeybees buzzing by they sure get around  
They're making us honey from all over town  
Honeybees buzzing by they sure get around  
They're making us honey yeah, I'm loving that sound

Beetles help the soil  
Silkworms make silk for us  
Ants and termites clean the forest  
Butterflies and bees help flowers grow  
Thank you little bugs for our fruits and vegetables  
(Thank you little bugs!)

Insects are incredible they sure are incredible  
Insects are incredible  
Insects are incredible they sure are incredible  
Insects are incredible

## An Insect Has...

Hop, hop, creep, creep, crawl, crawl, fly, fly, fly, fly, fly

An insect has two antennae

An insect has six legs

An insect has a head

An insect has a thorax

An insect has an abdomen

And so do I

An insect has two antennae

An insect has six legs

An insect has a head

An insect has a thorax

An insect has an abdomen

And so do I

Insects, insects, insects everywhere

You see them in the park

You see them in the grass

You see them in the dark

You can see them in the air

Insects, insects, insects everywhere

You hear them buzzing by

You hear them hiss or squeak

You hear them hum at night

You hear them in your sleep

Hop, hop, creep, creep, crawl, crawl, fly, fly, insects everywhere!

## We'll Find You, Bugs!

Look high, look low  
We'll find you bugs, we'll find you bugs  
Look far, look close  
We'll find you bugs, we'll find you bugs  
Underneath a rock, underneath a pot  
Climbing in the trees  
Living off of leaves

Look high, look low  
We'll find you bugs, we'll find you bugs  
Look far, look close  
We'll find you bugs, we'll find you bugs  
Underneath the dirt, underneath a log  
Living in my yard  
All around the pond

High and low and everywhere  
On the ground and in the air  
In the dirt, under leaves  
In the flowers and the trees

Look high, look low  
We'll find you bugs, we'll find you bugs  
Look far, look close  
We'll find you bugs, we'll find you bugs

## Share It

Yes you've wondered,  
You kept on asking  
You kept on asking 'til you understood  
And now that you know the answer  
There's just one more thing  
you have to do

Go share it with a friend  
Share it with a friend  
Share it with a friend  
Yes anyone will do

Go share it with a friend  
Share it with a friend  
When you share it with a friend  
It becomes a part of you

You can share it with a grown up  
A baby or a shoe  
You can share it with a neighbor  
A bird or bee or **newt!**

Go share it with a friend  
Share it with a friend  
When you share it with a friend  
It becomes a part of you
