## Rachel and the TreeSchoolers Theme Song

Rachel and the TreeSchoolers

Rachel and the TreeSchoolers

I'm Penny

I'm Simon

I'm Abacus Finch

Rachel and the TreeSchoolers

Chroma Chameleon

Yo, I'm Isaac Newt, (ha, ha)

Rachel and the TreeSchoolers

Abigail Nightingale

The firefly, Hue

Rachel and the TreeSchoolers

Bongo (ha ha ha ha)

And me Tomas, you'll love me

Rachel and the TreeSchoolers

We love Preschool

We love TreeSchool

Rachel and the TreeSchoolers

## I Wonder

I wonder  
Do you wonder?  
It all begins with wonder  
With a question on your mind  
You will find the world is wonderful

I wonder  
Do you wonder?  
The world is full of wonder  
Every day is a surprise  
You and I will find the wonderful

I wonder about different places  
I wonder about months in every year  
I wonder about seasons  
What could be the reason?  
I wonder how to care for Earth from here

I wonder  
Do you wonder?  
It all begins with wonder  
With a question on your mind  
You will find the world is wonderful  
With a question on your mind  
You will find the world is wonderful

# Rachel & the TreeSchoolers

## Seven Continents

North America, South America  
Africa, Europe, Asia  
Australia, Antarctica  
The seven continents of our world

North America, South America  
Africa, Europe, Asia  
Australia, Antarctica  
The seven continents of our world

Earth has two hemispheres  
The northern and the southern  
The northern is the top half  
The southern is below

Earth has two poles  
A north pole and a south pole  
The North Pole's at the top  
The South Pole's south we know

North America, South America  
Africa, Europe, Asia  
Australia, Antarctica  
The seven continents of our world

The equator is a line  
Like a belt around the middle  
It's the hottest place on earth  
Because it lines up with the sun

The sun is a light source  
And a heat source like an oven  
Get closer to the heat  
The hotter you become

North America, South America  
Africa, Europe, Asia  
Australia, Antarctica  
The seven continents of our world  
The seven continents of our world  
These are the seven continents of  
our world

## Song of the Seasons

Winter, spring, summer, fall  
Bringing change  
They come and go  
Say goodbye and say hello  
Twelve months in a year

Winter, spring, summer, fall  
Seasons change  
I love them all  
Here they come  
There they go  
Twelve months in a year

January, February  
Still cold, so cold  
March, April, May  
Flowers on their way  
June, July, and August  
Warmer, hot, and hottest  
September, October, November  
Helping us all remember  
Winter is on its way in December

January, February  
Still cold, so cold  
March, April, May  
Flowers on their way  
June, July, and August  
Warmer, hot, and hottest  
September, October, November  
Helping us all remember  
Winter is on its way in  
December

Winter, spring, summer, fall  
Seasons change  
And that's not all  
Every day I watch you grow  
Another year is here

## The Earth is Always Changing

The Earth is always changing  
May not seem that way, I know  
You could search for your whole lifetime  
And never see a mountain grow  
But the weather comes  
And weather goes  
Heat expands the freezing froze  
A crack in stone might crack some more  
Rocks roll down to a canyon floor

It may not seem like much  
But watching over time  
Little falling rocks  
Help create a valley wide

Yes, the Earth is always changing  
Like the oceans and the tides  
The Earth is always changing  
Changing slowly over time

The Earth is always changing  
May not seem that way, I know  
You could search for your whole lifetime  
And never see an island grow  
Volcanoes can form islands  
Where no islands were before  
Volcanoes in the ocean  
Lava from the ocean floor

It may not seem like much  
But watching over time  
Beneath the ocean water  
A landform can arise

Yes, the Earth is always changing  
Like the oceans and the tides  
The Earth is always changing  
Changing slowly over time

Earthquakes shake and landslides slide  
Storms may come and waters rise  
Winds will blow the sand below  
And I know

It may not seem like much  
But watching over time  
The rains will come and waterfalls  
Will grace the canyon side

Yes, the Earth is always changing  
Like the oceans and the tides  
The Earth is always changing  
Changing slowly over time  
Changing slowly over time

## Earth Takes Care of Me

Earth gives me  
Rain and water  
So I can take a drink  
Earth gives me sea  
Lakes, and streams  
Earth takes care of me  
(Earth takes care of me)

I save a lot of water  
When I brush my teeth  
I turn the faucet off  
When I brush  
I take care of Earth  
(I take care of Earth)

Earth takes care of me  
(Earth takes care of me)  
I take care of Earth  
(I take care of Earth)  
Earth takes care of me  
(Earth takes care of me)  
I take care of Earth  
(I take care of Earth)

Earth gives me trees  
To make things  
Like paper and a home  
Trees help me breathe  
And make fruit to eat  
Earth takes care of me  
(Earth takes care of me)

I recycle all my papers  
My plastics and my cans  
When I draw or write  
I use both sides  
I take care of Earth  
(I take care of Earth)

Earth takes care of me  
(Earth takes care of me)  
I take care of Earth  
(I take care of Earth)  
Earth takes care of me  
(Earth takes care of me)  
I take care of Earth  
(I take care of Earth)

Reduce!  
Reuse!  
Recycle!  
Reduce, reuse, recycle

Earth takes care of me  
(Earth takes care of me)  
I take care of Earth  
(I take care of Earth)  
Earth takes care of me  
(Earth takes care of me)  
I take care of Earth  
(I take care of Earth)

Earth takes care of me  
(Earth takes care of me)  
I take care of Earth  
(I take care of Earth)  
Earth takes care of me  
(Earth takes care of me)  
I take care of Earth  
(I take care of Earth)  
I take care of Earth  
(I take care of Earth)  
I take care of Earth

## What if Everybody Did It?

I was feeling oh so fancy  
In my brand new pair of shoes  
That my aunty had just bought me  
Such a lovely shade of blue

Then suddenly it happened  
Like it happened twice before  
Something pink and sticky  
Made my shoe stick to the floor

A piece of gum had carelessly  
Been tossed into the street  
The street's not meant for gum  
It's meant for bicycles and feet

And now you might be thinking  
It's was one little piece  
But there's a bigger problem here  
That I fear just may increase

If everybody did it  
There'd be gum everywhere  
We'd be sticking to each other  
There'd be gum in your hair

There are billions of people  
A stick for each one would mean  
Billions of chewed up  
Pink sticky gum  
It sure wouldn't be fun  
If everybody did it

What if everybody did it  
If we threw our trash on the ground  
There's be no room to run and play  
And trash will be crowding out

The air would be smelly and filled with flies  
Every day the garbage would double in size  
Using Earth as a dumpster  
Just wouldn't be wise

What if everybody did it  
What if everybody did it

What if everybody picked up  
The litter that they found  
And threw it in the garbage  
Instead of throwing it on the ground

What if everyone recycled  
Their paper, glass, and cans  
We each could make a difference  
The power's in our hands

What if everybody planted  
A tiny little seed  
Think of all the beautiful  
Flowers, plants, and trees

What if everybody did it  
What if everybody did it

# Rachel & the Tree Schoolers

## Glitterbug

Who's the kind of bug  
That leaves things shiny and clean  
A Glitterbug, be a Glitterbug  
Who's the kind of bug  
That cleans up trash that they see  
A Glitterbug, be a Glitterbug  
We'll track down the litterbugs  
And turn them into Glitterbugs

Glitterbugs dance and Glitterbugs sing  
A Glitterbug, be a Glitterbug  
Glitterbugs don't leave trash at the scene  
A Glitterbug, be a Glitterbug  
We'll track down the litterbugs  
And turn them into Glitterbugs

Do the Glitterbug (Glitterbug)  
Be a Glitterbug (Glitterbug)  
Do the Glitterbug (Glitterbug)  
Be a Glitterbug (Glitterbug)  
Let's track down the litterbugs  
And turn them into Glitterbugs  
(Glitterbugs)

Glitterbugs hop and Glitterbugs twirl  
A Glitterbug, be a Glitterbug  
Glitterbugs are clean boys and clean girls  
A Glitterbug, be a Glitterbug  
We'll track down the litterbugs  
And turn them into Glitterbugs  
(Glitterbugs)

We'll track down the litterbugs  
And turn them into Glitterbugs  
(Glitterbugs)  
Yeah!

## Everyday Hero

You don't need a cape and mask  
You don't need to run super fast  
You don't need to fly and touch the sky  
To be a hero

The only power that you need  
Is inside every human being  
If we let our power shine  
We can change the world  
One smile at a time

We'll be everyday heroes  
Say something kind each day  
Everyday heroes  
Share your things when you play  
Everyday heroes  
The little things we do each day  
Everyday heroes  
Can make the world a better place

You don't need a cape and mask  
You don't need to run super fast  
You don't need to fly and touch the sky  
To be a hero

The only power that you need  
Is inside every human being

If we let our power shine  
We can change the world  
One smile at a time

We'll be everyday heroes  
Say something kind each day  
Everyday heroes  
Share your things when you play  
Everyday heroes  
The little things we do each day  
Everyday heroes  
Can make the world a better place

We'll be everyday heroes  
Say something kind each day  
Everyday heroes  
Share your things when you play  
Everyday heroes  
The little things we do each day  
Everyday heroes  
Can make the world a better place

Say something kind each day  
Share your things when you play  
The little things we do each day  
Can make the world a better place  
Everyday heroes

## Share It

Yes, you've wondered,  
You kept on asking  
You kept on asking 'til you understood  
And now that you know the answer  
There's just one more thing  
You have to do

Go share it with a friend  
Share it with a friend  
Share it with a friend  
Yes, anyone will do

Go share it with a friend  
Share it with a friend  
When you share it with a friend  
It becomes a part of you

You can share it with your hamster  
Your sister or a dog  
You can share it with your monkey  
Your brother or a frog

Go share it with a friend  
Share it with a friend  
Share it with a friend  
Yes, anyone will do

Go share it with a friend  
Share it with a friend  
When you share it with a friend  
It becomes a part of you

You can share it with a grown up  
A baby or a shoe  
You can share it with a neighbor  
A bird or bee or newt

Go share it with a friend  
Share it with a friend  
Share it with a friend  
Yes, anyone will do

Go share it with a friend  
Share it with a friend  
When you share it with a friend  
It becomes a part of you  
*Share it!*
