Time to Create!

Step 1: Start by placing the top of your lollipop in the center of the napkin or Kleenex. Cover the lollipop completely, allowing only the stick to be seen. Gather the napkin around the base of the candy and tie with a piece of string or yarn to make the head of your ghost.

Step 2: Next, glue on the wiggle eyes. Using your marker, draw a face to complete your ghost.

Step 3: Allow time for the glue to dry.

If you want your ghost to look more festive, you can use a decorative Halloween napkin, stickers, etc. Don't be limited in any way... get creative!
