

## December Hand-y Craft: Reindeer

Use your own two hands to make a reindeer decoration for this holiday season.

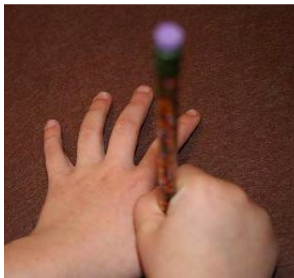

### Materials needed for each reindeer:

- 1 pinecone
- 2 large craft eyes
- 1 sheet dark brown stiff felt or craft foam sheet
- 1 sheet tan soft felt
- 1 red pom pom (1 in. diameter)
- 2 black pom poms (1 in. diameter)
- Pencil
- Scissors
- Rubber cement or tacky craft glue

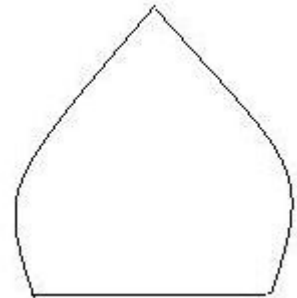

### Time to Create!

**Step 1:** Trace each hand on to the stiff felt and cut out.

**Step 2:** Trace two ears on to the soft felt and cut out.

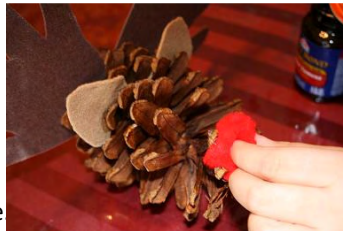

**Step 3:** Glue one craft eye on to each of the black pom poms.

**Step 4:** Glue a bottom of the cut out hands on the back and the front to help secure to the pinecone. Glue thumbs pointing away from the center on to the largest end of the pinecone. This will create the antlers.

**Step 5:** Glue the ears to the pinecone, one row in front of the antlers.

**Step 6:** Glue the red pom pom nose to the tip of the pinecone.

**Step 7:** Glue the black pom pom eyes slightly in front of the ears.

**Step 8:** Allow craft to dry completely before displaying it. Add it to a pinecone basket, or leave it on its own!
