

Love Bug Hand-y Craft

Show someone you love them with this love bug made from your own two hands!

Materials Needed:

- Two pieces of construction paper of different colors
- Two 1½-inch pieces of pipe cleaner
- Two craft google eyes
- Five ½- to 1-inch foam hearts
- Two ¼-inch craft foam or jewel hearts

Time to Create!

Step 1: Trace both hands on one of the pieces of construction paper and cut out.

Step 2: Glue the hands on second piece of paper, palms touching, to create the wings.

Step 3: Starting at the top of the palms, glue four of the foam hearts, overlapping slightly, to create the body.

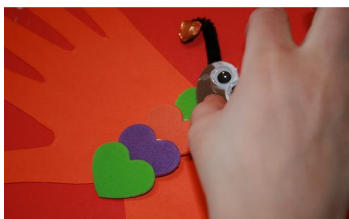

Step 4: Bend the tip of each of the pieces of pipe cleaner to look like a candy cane. Lay the pipe cleaners so they mirror each other. Glue the jewel heart to the crooked end of the each pipe cleaner to create the antennae.

Step 5: Glue antennae to the top of the body.

Step 6: Glue the craft google eyes to the remaining foam heart to create the head.

Step 7: Glue the head in place, overlapping the body and the antennae. Your love bug is complete!
