

Hand-y Craft Valentines Box

Use your hands to say "I Love You" on your Valentines Box

Materials Needed:

- Glue
- Scissors
- Shoe box or other small box
- Colored pencils or markers
- 2-3 different color sheets of construction paper

Time to create your box!

Step 1 – Trace your hand at least once on each color of construction paper. Cut out each hand.

Step 2 – Use the remainder of the paper to cut out 3-5 hearts of different sizes. Also, cut out a rectangular piece to write your name on.

Step 3 – Bend the middle two fingers of each hand down to the palm and glue the tips down to create the 'I Love You' hand shape. (This ASL sign is made up of the letters I, L and Y – it's an abbreviation for I Love You!)

Step 4 – Glue the hands, hearts, and name to the box. Be sure to cover any writing that is on the box with your decorations.

Step 5 – Have an adult cut a slit in your box large enough for your Valentine cards to fit through.
