

# Hand-y Pots

## Materials Needed:

- Terracotta pots
- Craft paints
- Paint brushes
- Aerosol clear varnish

## It's time to create your pots!

**Step 1** – Decorate the pot with your hand prints. Paint your hand and place it on the pot. Repeat using a different color of paint.

**Step 2** – Use a small paint brush to add decorative touches.

**Step 3** – If there's room, use a small paint brush to write your name or put messages on the pot. We choose to write things like "Love Makes Things Grow" and "I love you."

**Step 4** – Allow paint to dry completely.

**Step 5** – Spray pot with varnish inside and out to waterproof it.

**Step 6** – Put a plant in your pot or use it as a decorative holder for gardening hand tools, pens and pencils, scissors and other craft supplies!
