

Hand-y Stepping Stones

Materials Needed:

- Paving stones of your choice - available at home and garden stores
- Clear aerosol varnish
- Craft paint
- Paint brush

It's time to create your stepping stones!

Step 1 – Use the craft paint and brush to paint your hands. Place them on a paving stone.

Step 2 – Use the paint brush to write your name and the year, if desired, and decorate the paving stone.

Step 3 – Allow paint to dry completely.

Step 4 – Have a grown up spray clear varnish on the top of the stone. This helps set the paint and make it waterproof.

Step 5 – Place your finished stone in your yard or garden!
